INTRODUCTION

The *Directory of Family Planning Grantees, Delegates, and Clinics* is a publication of the National Clearinghouse for Family Planning Information, a service of the Office of Family Planning in the Office of Population Affairs, Department of Health and Human Services. The purpose of the Clearinghouse is to promote the exchange of family planning information among service providers, family planning consumers, and educators. In addition to this directory, information services offered by the Clearinghouse include the publication of fact sheets, bibliographies, the *Education Bulletin*, and the *Information Services Bulletin*, as well as custom searches and responses to requests for information.

The purpose of this directory is to facilitate communication among the various family planning clinics supported by the Office of Population Affairs. This ninth edition provides listings for 89 grantees, which include one new grantee this year, approximately 800 delegates, and more than 3,700 clinics. The information in this edition is current as of May 1985.

The directory is divided into three parts. The first part consists of a list of the family planning grantees arranged by region, and alphabetically within region by State, city, and organization name. The second part lists the family planning delegate agencies that receive a sum of money from the grantee to contract for services in a particular area. The delegates are arranged by region and alphabetically within region by State, city, and organization. The third part lists the family planning clinics which are supported by the grantees, and in some cases, by delegates. The clinics are also arranged by region and alphabetically within region by State, city, and organization.

In order to indicate the supporting grantee and delegate, where appropriate, for each clinic, the grantees in Part 1 have been numbered as indicated by a "G" (for grantee) followed by a number located above the upper left corner of the address. In Part 2, the delegates have been numbered as indicated by a "D" (for delegate) followed by a number located above the upper left corner of the address. The delegate number is followed in parentheses by the supporting grantee. In Part 3, corresponding numbers, located above the upper left corner of the clinic address, are used to indicate clinics supported by that grantee and the delegate, when appropriate. Not every clinic is necessarily associated with a delegate agency. An asterisk (*) adjacent to the number in the upper left-hand corner signifies that the agency does not receive Title X funds; however, it provides family planning services and is associated with the grantee. If a mailing address differs from an actual location site, both addresses are included and the mailing address is indicated with an "m."

The Clearinghouse again requested the grantees to supply telephone numbers for themselves and the facilities they sponsor. This information is included for all of the regions that responded. To obtain the telephone number of a facility that did not list its number, dial the area code and Directory Assistance (555-1212).

The Clearinghouse would like to thank the family planning Regional Program Consultants and grantees for providing information about the clinics and delegates that they sponsor. Since the Clearinghouse intends to update the directory periodically, we welcome notification of address changes.
